AN EXCITING SCENE.—A few days since, as a train on a railroad leading to this city was running at full speed to this city was running at full speed, the engineer saw on the track a small child. He immediately whistled down the brakes and reversed the engine; at that moment the mother of the child emerged from a honse at the side of the track, expecting to see her darling crushed beneath the wheels of the approaching engine. The speed of the train was gradually slackened, but the distance was only a few yards, and it seemed impossible a few yards, and it seemed impossible to check it in time to save the child, who seemed fastened to the track and made no attempt to move from the approaching danger. The engine went on and on; the cow-catcher struck the child and knocked it across the track, but the momentum of the train was counteracted just as the wheels of the engine touched the clothing of the little one. A few inches further and it would have been crushed and mangled. The mother caught the child in her arms and when she found it was still alive, and when she found it was still alive, and comparatively unhurt, her mother's feelings of joy were too great and she swooned entirely away. The conductor says that in many years' experience on railronds he never experienced so exciting a scene.—Wheeling Register.

Some of the new hats are of the toquet style, with turned-up brims, lined with crepe, and trimmed with birds of dazzling plumage. A very stylish hat is caught up on one side with a fancy ornament, a la militaire. A simple style of trimming for a country hat is a veil of blue, green or violet crepe lisse or grenadine, caught in puffs round the hat by fancy ornaments, bands of straw or violet. One long streamer floats at the side, which answers the purpose of a veil. Some of the new hats are of the answers the purpose of a veil.

French Medicines in Vogue!

GRIMAULT & CO., Chemists to H. I. H. Prince Napoleon,

49 RUE RICHELIEU, PARIS.

NO MORE COD LIVER OIL. Grimault's Syrup of Iodized Horse Radish.

Syrup is employed with the greatest success, in place of Cod Liver Oil, to which it is infinitely superior. It cures diseases of the chest, serofula, lymphatic disorders, green sickness, muscular atony and loss of appetite. It regenerates the constitution by purifying the blood, being thus invaluable in the treatment of skin diseases, and is administered with the greatest efficacy to young children, subject to humors, or obstruction of the glands.

No More Poverty of the Blood and Pale Complexion.

Dr. Leras' Phosphate of Iron.

Dr. Leras' Phosphate of Iron.

This new ferruginous medicine contains the elements of the blood and bones, and iron in a liquid state. It is different from all hitherto offered to the public, is liquid, colorless and tasteless. It speedily cures chlorosis, pains in the stomach, difficult digestion, dysmenorrhea, anemia.

The majority of the Academies of Medicine of Paris recommend the Phosphate of Iron to ladies of delicate constitution suffering from anemia, and all other persons fatigued from over-auxiety, nervous emotions, over-work, general debility and poorness of blood; never causes constipation.

NO MORE CONSUMPTION. Grimault's Syrup of Hypophosphate of Lime,

For all diseases of the chest. This medicine is invaluable; it is largely used at the Brompton Hospital, in London, for consumption, and generally approved by the leading men in England and France.

BETTER THAN COPAIBA. Grimault's Vegetable Matico Trijec-tion and Capsules.

Where all other medicines have failed, these preparations will always effect a cure.

These insure rapid and extraordinary cure of severe recent and chronic cases of private disease. They are used in the hospitals of Paris by the celebrated Dr. Ricord, and are found greatly superior to all hither-to-known mirred. to known mineral remedies and Copaiba and Cubebs. The injection is used in re-cent, and capsules in the more chronic
